

Fig. 1

K-S Particle Found

Two physicists announced that they had found the K-S particle. If confirmed, this will verify the theory of the Nobel laureates, Professors Kendrick Chan and Sophia Chan, who first postulated the existence of the K-S particle ten years ago. The physicists, Drs. Lisa Smith and John Doe, showed computer generated results indicating the detection of the K-S particles in a series of experiments carried out at the International Super-High Energy Accelerator.
